**Advice Letter 293-W  
Great Oaks Water Company (U-162-W)  
To the California Public Utilities Commission**

Great Oaks Water Company (Great Oaks) submits this Tier 1 advice letter filing requesting the implementation of a surcharge to amortize the balance in Great Oaks' Monterey-Style Water Revenue Adjustment Mechanism Account (WRAM Account). The following tariff sheets implementing this surcharge are attached to this advice letter:

CPUC Sheet Number	Title	Canceling
942-W	Schedule No. 1 GENERAL METERED SERVICE SPECIAL CONDITIONS	938-W
943-W	TABLE OF CONTENTS	941-W

Summary and Request for Authorization to Impose Surcharge

Decision (D.) 10-11-034 authorized Great Oaks to establish a WRAM Account to track the difference between revenue Great Oaks receives for actual metered sales through tiered rates and revenue Great Oaks would have received through the uniform, single-quantity rates if such rates had been in effect.

Pursuant to Ordering Paragraph 9 of D.10-11-034, Great Oaks filed Advice Letter 202-W to establish the WRAM Account, and the Commission approved the WRAM Account effective March 8, 2011. Tariff sheets for the WRAM Account were last revised and updated, effective November 20, 2015, pursuant to Great Oaks' Advice Letter 248-W.

On multiple prior occasions, Great Oaks has amortized the balance in this WRAM account. Great Oaks' Advice Letter 223-W was approved by the Commission with an effective date of May 13, 2012. Supplemental Advice Letter 229-W-A was approved by the Commission with an effective date of January 15, 2013. Advice Letter 242-W was approved by the Commission with an effective date of September 2, 2014. Advice Letter 251-W was approved by the Commission with an effective date of January 19, 2016. Advice Letter 265-W was approved by the Commission with an effective date of August 3, 2017.

More recently, the Commission authorized Great Oaks to amortize the balance in the WRAM account by approving Advice Letter 290-W (effective July 21, 2020), which employed the same methodology as presented here.

The current balance in the WRAM Account is \$635,933.50. See attached Advice Letter 293-W Exhibit A Workpapers.<sup>1</sup> The time period covered by the WRAM Account is from May 26, 2020 through September 28, 2020. The supporting calculations in the workpapers provides a week-by-week summary of the difference between the revenue Great Oaks actually received through quantity charges from Single-Family Residential Customers and what Great Oaks would have received from those same customers under uniform quantity charges for the time periods specified in the authorized WRAM Account.

The amount to be amortized through this Advice Letter, \$635,933.50, represents 3.05% of Great Oaks' total revenue requirement (\$20,836,321<sup>2</sup>) for the current rate year. Pursuant to D.10-11-034, Great Oaks is authorized to recover the balance in the WRAM Account through a surcharge only on Single-Family Residential Customers.

Adopted water sales for single-family residential customers for the July 1, 2020 to June 30, 2021 rate year are 4,735,704 ccf.<sup>3</sup> The surcharge to amortize the combined WRAM balances calculates to \$0.1343 per ccf ( $\$635,933.50/4,735,704$ ).

Great Oaks requests authority to implement this surcharge on all water delivered to single-family residential customers for a twelve-month period beginning November 10, 2020.

---

<sup>1</sup> Data supporting the information in the Workpapers is available upon request. The data will consist of billing entries for the time period covered by this Advice Letter.

<sup>2</sup> The total revenue requirement for the current rate year was authorized through D.19-09-010.

<sup>3</sup> D.19-09-010.

All Single-Family Residential Customers will be subject to the surcharge for a twelve-month period. With the surcharge, the average bi-monthly bill for a Single-Family Residential Customers with a 3/4" x 3/4" meter using 10 ccf of water per month will increase by 3.15% from \$90.89 to \$93.75, as shown below.
